

HETKI

SAUNA FINLAND

**AUTHENTIC FINNISH OUTDOOR SAUNA
READY-MADE FOR YOUR GARDEN**

ABOUT US

Hetki saunas are manufactured in the middle of Finnish nature – from fine-grained logs, using methods inherited from our ancestors. Your sauna will be carefully built by Finnish sauna masters and transported ready-to-use to your garden.

WHY HETKI?

Our saunas are made in Finland by highly skilled sauna builders, using the best materials and wisdom that comes from a long tradition. These relaxing sauna experiences will last for decades.

TURNKEY DELIVERY TO YOUR GARDEN

We have made purchasing a Hetki sauna an easy, hassle- and risk-free experience. All you need to do is find a suitable place for your sauna in your garden and make light foundations – for which we will give you instructions – and choose the colour and accessories for your sauna. We will take care of everything else.

You will need an electrician on site to connect the sauna to the mains. Our reseller will be happy to help you with this as well.

HAND-MADE IN FINLAND

Every Hetki sauna is made by highly skilled Finnish sauna masters, adhering to strict quality control procedures. A Hetki sauna is a well-thought-out structure, designed and built to last from one generation to the next.

Hetki saunas are always ready-to-use when delivered to our customers. This way we can guarantee the high quality and functionality of your sauna. Turnkey deliveries also spare our customers from many of the headaches and problems associated with purchasing a DIY sauna kit.

The background of the entire page is a close-up, top-down view of a stack of logs. The logs are arranged in a somewhat regular pattern, with their circular cross-sections facing the viewer. The wood grain is clearly visible, showing concentric growth rings. Three circular cutouts are integrated into the log stack. The top-right cutout shows a modern, light-colored wooden building with a gabled roof, likely a sauna, set against a bright sky. The bottom-right cutout shows a dense forest of tall, thin trees, possibly spruce or pine, under a clear sky. The middle-right cutout shows a single, light-colored wooden plank with a vertical grain, possibly a sauna board, set against a dark background.

SECRET OF OUR SAUNA IS IN ITS LOGS

The oldest saunas in Finland were specifically log saunas – and so are Hetki saunas. The frame of a Hetki sauna is made of spruce grown in northern Finland. The growing season is short in cold climates, which makes the timber dense, strong and long lasting. The timber we use is harvested from sustainably managed, certified forests.

Logs are also an excellent building material because they are 100% renewable, breathable and resistant to moisture, and they absorb carbon dioxide. Hetki saunas therefore combine the health benefits of the sauna and wood.

HETKI OUTDOOR SAUNA

Our saunas combine the best properties of wood with sleek Finnish design.
A Hetki sauna takes up very little room in your garden but offers great experiences for you, your family and friends.

DIMENSIONS OF SAUNA
